

HOW TO CLEAN YOUR ESKIMO RADIATOR SURFACE

Beauty is in the eye of the beholder.

Some like to maintain their beauty, some see the beauty in the natural ageing over time. One thing's for sure, Eskimo's radiators are all beautiful.

Outline radiators

Brushed

Clean with a stainless steel cleaner, no abrasives, then rub down with baby oil along the grain for a smear-free sheen.

RAL colour finish (inc. metallics: Maggie, Fop, Compost and the NEW sublimation prints)

Any multisurface cleaner suitable for kitchen worktops but no abrasives.

Supermirror and Brassy

Any glass cleaner suitable for use on mirrors. If you suffer any particularly bad staining or tarnishing, try gently buffing with Brasso.

Concrete & Marbles

Use water or any multisurface cleaner with a lint free cloth or soft brush.

Woody & Bamboo

Woody's Oak veneers are lacquered so we suggest a spray furniture polish.

Gong

It is not recommended that you try to clean or add anything to the patinated surface.

It should not be necessary to have to clean the surface. At most, a yellow duster or soft muslin cloth can be used to polish. Spillages or anything of

that sort should be removed immediately with soft tissue. All standard cleaning products are a bad idea as they will, at best, attack the wax, at worst, damage the patina.

If cleaning is really necessary, the radiator should be allowed to cool and then a very dilute sugar soap solution can be used with soft muslin and then dried thoroughly with tissue.

No abrasives should be used or applied and you should not attempt to wax the radiator.

Rusty

As Gong, above.

RON radiators

Gold finish

Gently clean with soapy water and then buff with a dry lint free cloth.

Matt aluminium finish

Gently clean with soapy water and then buff with a dry lint free cloth.

RAL colour finish (including three metallics: Maggie, Fop, Compost & sublimation prints)
Any multisurface cleaner suitable for kitchen worktops but no abrasives.

Polished finish

Any mirror cleaner. Use Brasso for stains.
