GONG finishes cannot be controlled beyond the method that Eskimo have selected. Your GONG will be close to the colour and tone that you see in the pictures. However, the patination (pattern) can vary from a very subtle 'speckles' to more fluid 'swirls'.

Each GONG radiator is absolutely unique.

All heat outputs in this list are calculated in accordance with BS EN442, based on a Delta T of 50°C - for an explanation of this & to calculate performance at different Delta Ts please see the technical pages in the brochure or on the website.

Connections are 1/2" BSP opposite end underside unless otherwise specified

All Eskimo products are designed & manufactured in the UK, by Eskimo.

If you require export packaging, this is £40 wholesale. Standard carriage in the UK is £30 per radiator.
